

MAGNETIC SEAL CORP QUALITY ASSURANCE POLICY STATEMENT

Magnetic Seal's Quality Policy is to meet or exceed customer expectations. We strive to effectively design and consistently produce only high-quality products to meet or exceed Magnetic Seal and customer specifications. Our goal is to commercialize those products along with supporting technical capabilities through market leading customer value and service.

The MagSeal Advanced Process has been developed to be in compliance with the International Standard ISO 9001 and AS9100.

The Management Representative has full authority for the administration and management of this system. This MagSeal Advanced Process has the complete support and commitment of the management and employees of Magnetic Seal Corp..
