Product Change Notification Letter

Dear Valued Customers,

You are receiving this letter because you have purchased from Magnetic Seal Corp (MSC) in the past. We are pleased to announce the introduction of a new and improved packaging solution for our product which allows for:

- Simpler, standardized packaging
- 100% recyclable material

Details of this change:

The scope of the change is simply to remove the non-recyclable foam with a 100% recyclable material. In doing this, the heat sealed assembly will be placed in the new insert into its own individual box. No other packaging or product changes will occur; all labels will remain the same. Although the packaging may appear different, this change will not affect the quality of our product.

Please note this is a change to packaging only. We will begin transitioning into this new packaging solution by November 2017. During this period, some shipments may contain a mixture of old and new packaging. For additional information, please contact Linda Linphanit, Quality and Supply Chain Manager at LLinphanit@magseal.com. We appreciate your business, and will continue to provide you with industry leading products and services to meet your current and future needs.
